CAREER OBJECTIVE

Aspiring Software Developer with hands-on experience in building full-stack applications using **Java, Spring Boot, Hibernate, and MySQL**, with a strong foundation in object-oriented programming, REST API development, and database management. Interested in integrating **AI capabilities into software applications** to develop practical, scalable, and efficient solutions that address real-world problems.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, C, Python
Backend Development: Core Java, Object-Oriented Programming (OOP), Collections Framework, exception handling, Hibernate, Spring Boot, Spring Security, Spring Data JPA, REST APIs
Frontend Development: HTML, CSS, Bootstrap, JavaScript, React.js
Databases: MySQL, PostgreSQL, MongoDB, DBMS
AI Integration: Large Language Model (LLM), Spring AI, Ollama, Prompt Engineering
Tools & Platforms: Git, GitHub, AWS, Postman, Maven, Vercel, Render, Railway
AI: Machine Learning, basics of Deep Learning, LLM.

PROJECTS

SmartSpend AI — AI-Powered Expense Tracker | Live Demo | Github Source Code | 2026

- Developed a full-stack expense tracker with REST APIs, MySQL, and monthly spending dashboards.
- Implemented expense management, budget tracking, and spending summaries.
- Integrated Spring AI and Ollama to extract expense details from natural language and generate personalized spending insights.
- Added input validation and user confirmation before saving AI-generated expenses.
- Built an interactive React.js frontend and deployed the application Railway.

Tech Stack*:* Java 24, Spring Boot, Spring Data JPA, Hibernate, MySQL, React.js, JavaScript, Spring AI, Ollama, REST APIs, Postman, Maven, Railway.

LedgerPro — Banking & Transaction Management System | | 2026

- Developed a banking simulation system with account management, deposits, withdrawals, fund transfers, and transaction history using **REST APIs.**
- Implemented `@Transactional` fund transfers with rollback to maintain database consistency.
- Applied database constraints and concurrency controls to prevent invalid balance updates.
- Implemented authentication and account-level authorization to secure banking operations.
- Wrote JUnit tests for transaction logic, insufficient balances, and failure scenarios.

Tech Stack*:* Java 24, Spring Boot, Spring Data JPA, Hibernate, MySQL, Spring Security, REST APIs, Postman, JUnit, Maven, GitHub.

EDUCATION

MSc in Computer Science (1st year SGPA: 9.09) -Modern College of Arts, Commerce and Science, Pune-05. 2025 – Ongoing
BSc in Computer Science (CGPA: 9.21) - K.R.T. Arts, B.H. Commerce & A.M. Science College, Nashik (SPPU University*)* Completed, 2025
HSC (Science) (69.83%) - Nutan Vidhya Mandir Junior College Devlali Camp, Nashik. Completed, 2022
SSC (93.20%) - ST. Patricks Convent High School Devlali Camp, Nashik. Completed, 2020

ACHIEVEMENTS & CERTIFICATIONS | Certifications link

- 2nd Rank (PG category) Avishkar College level and Zonal level Research Project Competition (SPPU) - 2025
- AWS Academy Cloud Foundations Completion Certificate. - 2026202
- NEF Innovation Awards 2026 competition -Amongst top 50 projects.
- WAISE – Women in AI for Skills & Employability Program (EY Global Delivery x Nirmaan Organization) - 2026
- Cybage Khushboo Project Tech Fest 2026 Participation.
- 60-Hour Skill & Personality Development Program (Infosys × Centum Foundation). - 2025
